

Clear the Board

On a whiteboard or piece of paper write the numbers 2 – 12. Players roll 2 dice and quickly add them together. The sum of the dice is the number to remove from whiteboard or cross off the paper. If the answer has already been cleared, their turn is over. The first to have all their numbers “cleared” is the winner.

2 3 4 5 6 7 8 9 10 11 12
